About Us

Emergency Lighting Solutions
Global Leader in Emergency Lighting Innovation

- Guangdong Yongcheng Intelligent Electrical Appliance Co., Ltd. is rooted in Xinhui District, Jiangmen City, focusing on the research and development, production of high-quality emergency lighting systems, and serving customers in many countries and regions around the world. A modern factory with a production line covering 10000 square meters, with an annual production capacity of over 7 million units, has passed international certifications such as ISO 9001, CE, RoHS, etc.

CE AND ROHS CERTIFICATES

Why Choose Us? | Core advantages

- Large scale intelligent manufacturing
- 10000 ㎡ factory building+SMT surface mount production line, with a daily production capacity of 20000 pieces, supporting large-scale orders with 15 day delivery
- 100% full inspection+aging laboratory, MTBF (mean time between failures) exceeding 50000 hours

Scenario based research and development capability

- A professional team of engineers holding multiple patented emergency lighting technologies
- Support CE/RoHS multi country certification customization, suitable for commercial/industrial/civilian scenarios (such as explosion-proof, high and low temperature, solar powered models)

Agile Service System

- Exclusive foreign trade team responds 24/7, providing flexible OEM/ODM solutions
- Provide a solution within 48 hours for after-sales issues

EMERGENCY EXIT SIGN

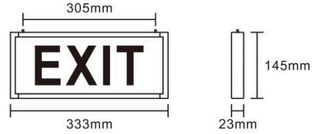

- New design and fashionable appearance;
- High brightness LED light source, long service life;
- Automatic lighting in case of fire to ensure safety;
- Charge discharge protection, super stable play.

Emergency Exit Sign

PRODUCT CHARACTERISTICS

- Adopting efficient LED light source, with low energy consumption and long lifespan
- Soft and penetrating light ensures long-range visibility
- The shell is made of high temperature and impact resistant materials, suitable for harsh environments
- Through rigorous testing, meet the requirement of continuous emergency lighting for power outages lasting more than 90 minutes

Emergency Light

PRODUCT CHARACTERISTICS

- Adopting efficient LED light source, with low energy consumption and long lifespan
- Soft and penetrating light ensures long-range visibility
- The shell is made of high temperature and impact resistant materials, suitable for harsh environments
- Through rigorous testing, meet the requirement of continuous emergency lighting for power outages lasting more than 180 minutes

Emergency Power Supply Device

RoHS CE CB LVD TÜV ISO9001

PRODUCT CHARACTERISTICS

- Original imported chip intelligent CNC technology, with more stable performance and precise control;
- PWM constant current output ensures consistency and stability of output brightness;
- Intelligent pulse charging, precise over discharge protection, and extended battery life;
- Efficient and durable battery with over 50000 cycles of charging and discharging;
- Efficient transformer device, more energy-efficient and environmentally friendly;
